

# **Computer Science Tutoring Schedule**

## **Fall 2017**

The CS department provides *free* tutoring services for students taking CPSC 121, 122, and 223. Tutoring will occur within either the CS lab in HK 223 or in HK 220 (the room adjacent to the CS lab). There are 4 tutors each working 5 hours per week, so a total of 20 hours per week of tutoring time is available to students. Each tutor can provide help with CPSC 121, CPSC 122, or CPSC 223, and in some cases additional lower-level and upper-level courses. If you have questions about tutoring please feel free to contact Shawn Bowers ([bowers@gonzaga.edu](mailto:bowers@gonzaga.edu)). Please note that this schedule is for the Fall semester only.
